Rabbits versus Plants

This list is a guide to plants that rabbits tend to avoid but it is not comprehensive and nor can it be guaranteed that the rabbits will not eat them if there is a shortage of their preferred plants!

<p><u>Trees</u> Arbutus unedo Araucaria Betula pendula Buxus Laburnum Laurus nobilis Pinus nigra Prunus spinosa Syringa</p>	<p><u>Shrubs</u> Aucuba japonica Buddleja davidii Ceanothus Elaeagnus Hebe Kalmia latifolia Olearia Philadelphus Symphoricarpus Viburnum opulus</p>	<p>Arbutus unedo Buxus Daphne mezereum Euonymus Hydrangea Lavandula Ribes Skimmia Paeonia (Tree) Viburnum tinus</p>
<p><u>Perennials</u> Acanthus spinosus Adenophylla Agapanthus Alchemilla mollis Anemone(Japanese) Aquilegia Aster Astilbe Bergenia Campanula Chionodoxa Corydalis Cyclamen Dahlia Delphinium Digitalis Doronicum Epimedium Eranthis Eryngium Euphorbia</p>	<p>Francoa sonchifolia Galanthus Geranium macrorrhizum Helianthus Hemerocallis Helleborus Iris foetidissima Lamium Leucojum Liriope Lupinus Malva moschata Myosotis Narcissus Nepeta Nicotiana Phormium Polemonium Salvia Saxifraga umbrosa Sedum spectabile</p>
